Welcome to the SFA Traceability Platform!

The SFA's Traceability Platform is currently in development and is due to launch in 2025.

SFA Chain of Custody Standard

The SFA has developed a Chain of Custody system for tracking fibre from certified herder organisations along the supply chain, allowing SFA members to make credible claims about the content of SFA-certified cashmere in their products and use the 'SFA Certified' logo effectively. The system was first implemented in Mongolia in 2020 and was extended into China in 2021. In October 2024, the SFA published the SFA Chain of Custody Standard v1.1, which will come into effect in March 2025, obsoleting the SFA Chain of Custody Guidelines v3.1.
